## Volume 52 (1990)

### No. 1

- P.-G. Nyholm, I. Pascher and S. Sundell (Göteborg, Sweden), *The effect of hydrogen bonds on the conformation of glycosphingolipids. Methylated and unmethylated cerebroside studied by X-ray single crystal analysis and model calculations* ..... 1
- T.I. Lotta, A.P. Tulkki, J.A. Virtanen and P.K.J. Kinnunen (Helsinki, Sweden), *Interaction of 7,7,8,8-tetracyanoquinodimethane with diacylphosphatidylcholines and -phosphatidylglycerols. A photoacoustic Fourier transform infrared study* ..... 11
- R.H. Stinson (Guelph, Canada), *Palmitoyl carnitine can exist in lamellar and hexagonal phases* ..... 29
- D.M. Sadler, F. Reiss-Husson and E. Rivas (Bristol, U.K., Gif sur Yvette, France and Buenos Aires, Argentina), *Thickness measurements of single walled dimyristoyl phosphatidylcholine vesicles by neutron scattering* ..... 41
- P. Viani, G. Cervato, A. Fiorilli, E. Rigamonti and B. Cestaro (Milan, Italy), *Studies on peroxidation processes of model membranes and synaptosomes: role of phosphatidic acid* ..... 49
- A. Hayashi, T. Matsubara, T. Nakamura and T. Kinoshita (Osaka and Tokyo, Japan), *Structure determination of phosphosphingolipids by fast atom bombardment and tandem mass spectrometry* ..... 57

### No. 2

- E.E. Brumbaugh, M.L. Johnson and C.-H. Huang (Charlottesville VA), *Non-linear least squares analysis of phase diagrams for non-ideal binary mixtures of phospholipids* ..... 69
- M. Kellens, W. Meeussen, C. Riekel and H. Reynaers (Leuven and Izegem, Belgium and Grenoble, France), *Time resolved X-ray diffraction studies of the polymorphic behaviour of tripalmitin using synchrotron radiation* ..... 79
- G. Vogel, M. Woznica, H. Gfeller, C. Müller, A.A. Stämpfli, T.A. Jenny and W. Eichenberger (Bern and Freiburg, Switzerland), *1(3),2-Diacylglycerol-3(1)-O-2'-(hydroxymethyl)(N,N,N-trimethyl)- $\beta$ -alanine (DGTA): A novel betaine lipid from *Ochromonas danica* (Chrysophyceae)* ..... 99
- K. Müller and A. Schuster (Graz, Austria), *Solubilization of multilamellar liposomes of egg yolk lecithin by the bile salt sodiumtaurodeoxycholate and the effect of cholesterol — a rapid-ultrafiltration study* ..... 111
- F. Castelli, A. Raudino and S. Gurrieri (Catania, Italy), *Calcium ion influence on thermotropic behaviour of dipalmitoylphosphatidylcholine-vitamin D<sub>3</sub> systems* ..... 129
- P.R. Harrigan, T.D. Madden and P.R. Cullis (British Columbia, Vancouver), *Protection of liposomes during dehydration or freezing* ..... 139
- T. Janas, J. Kuczera and T. Chojnacki (Wrocław and Warsaw, Poland), *Voltage-dependent behaviour of dolichyl phosphate-phosphatidylcholine bilayer lipid membranes* ..... 151

### Short Communication

- T. Inoue, K. Fukushima and R. Shimosawa (Fukuoka, Japan), *Surfactant partition between bulk water and DPPC vesicle membrane: solid-gel vs. liquid-crystalline membrane* ..... 157

### Nos. 3, 4

- D.R. Kodali, A. Tercyak, D.A. Fahey and D.M. Small (Boston, MA), *Acyl migration in 1,2-dipalmitoyl-sn-glycerol* ..... 163
- A. Hayashi, Y. Mishima and T. Matsubara (Osaka and Fukuoka, Japan), *Occurrence and structural determination of octadecasphinga-4,8,10-trienine* ..... 171

C.-H. Chen and S.G. Engel (Albany, NY), <i>The susceptibility of membrane vesicles to interaction with ethanol</i> .....	179
T.D. Madden, A.S. Janoff and P.R. Cullis (Vancouver, Canada and Princeton, NJ), <i>Incorporation of amphotericin B into large unilamellar vesicles composed of phosphatidylcholine and phosphatidylglycerol</i> .....	189
K.K. Eklund (Helsinki, Finland), <i>Monovalent cation-induced fusion of acidic phospholipid vesicles</i> .....	199
M. Vauhkonen and P. Somerharju (Helsinki, Finland), <i>The surface lipid bilayer of human low density lipoprotein probed by dipyrenyl phospholipids</i> .....	207
Y. Isaacson, C.D. Sherbourne, R.W. Gross and W.F. Stenson (Washington, DC), <i>The synthesis and molecular dynamics of phospholipids having hydroxylated fatty acids at the sn-2 position</i> .....	217
R.M. Epand (Hamilton, Canada), <i>Hydrogen bonding and the thermotropic transitions of phosphatidylethanolamines</i> ....	227
S. Sonnino, L. Cantu, D. Acquotti, M. Corti and G. Tettamanti (Milan and Pavia, Italy), <i>Aggregation properties of GM3 ganglioside (IPNeu5AcLacCer) in aqueous solutions</i> .....	231
B.A. Holm, A.R. Venkitaraman, G. Enhorning and R.H. Notter (Buffalo and Rochester, NY), <i>Biophysical inhibition of synthetic lung surfactants</i> .....	243
V.F. Antonov, E.Yu. Smirnova and E.V. Shevchenko (Moscow, U.S.S.R.), <i>Electric field increases the phase transition temperature in the bilayer membrane of phosphatidic acid</i> .....	251
<b>Short communication</b>	
H. Imasato, J. Procópio, M. Tabak and T. Ionedá (São Paulo, Brazil), <i>Effect of low mole fraction of trehalose dicorynomycolate from <i>Corynebacterium diphtheriae</i> on water permeability and electrical capacitance of lipid bilayer membranes</i> .....	259
Announcement .....	263
Subject Index Volume 52 .....	265
Author Index Volume 52 .....	269
Volume Contents Volume 52 .....	271
